

2002-2008 Renault Mégane II Change Bulbs Replacement

Written By: M. Khalifa

Step 1 — Change Bulbs

- How to Change Left Headlight Indicator Bulb On Renault Megane 2005

Step 2

- Remove the Battery
- After removing the Battery your hand should be able to slip in and feel for the tail of the indicator bulb unit
- Once you have located the bulb unit turn the tail of it anti-clockwise (it doesn't need to turn much)
- If you can't turn it anymore give it a little bit of a wiggle and pull it out
- It might get a bit tricky here as you need to kind of Jimmy it out at an angle so make sure you don't Drop It
- Once you have freed the unit take out the bulb, replace it with the new one

To reassemble your device, follow these instructions in reverse order.
